CELEBRITY BABY BLOG'S

Green Guide

Products, fashion and design for 'green' parents & parents-to-be.

In our third installment of the CBB Green Guide, we'd like to bring to your attention to great baby gear that is made with saving the environment in mind. We spend a lot of money each year on gear and accessories for our children. And much of it is made from materials that don't help protect the environment.

Belle Baby Carriers are quickly establishing themselves as the must-have baby carrier. And just recently they've introduced their organic line of carriers that come in moss green, sand and black. Each organic carrier is made of a 100% organic cotton/hemp material blend and lined with organic fleece cotton. The Belle Baby Carrier also uses a yoga mat piece as padding behind the buckle to help reduce landfill waste.
