

Gentle Front-Support Baby Carrier

In the Media: Cookie - September 2008

## Testing the best baby carriers around.

Comfort: 3 Stars  
Ease of use: 4 Stars  
Weight: 10 to 25 pounds

This ergonomic carrier is designed to distribute your baby's weight to your hips instead of your back, and comes in a wide variety of organic fabrics. Its narrow straps and minimal design keeps it airy and cool for both you and your baby.

Testers said: "The material feels cozy, and since it's small, it's great for travel. You can even fit it in a diaper bag."
