

Gentle Front-Support Baby Carrier

In the Media: MetroSports New York - Oct. 2008

Organic Baby Carrier for New York Mom's

For moms looking to carry their newborns in style, this is the carrier of choice. Designed for babies 10-25 lbs., the carrier has an easy-to-adjust five point support system that transfers the baby's weight directly to your hips and not your back, so you can get out walking and hiking with your little one safe and close.

Best of all, the carrier comes in fun prints like dalmation and cheetah, or softer colors such as lilac and sky blue. There are also two new organic fabric styles in moss and sand. \$90, \$100 organic, www.bellebabycarriers.com.
